ELECTRONIC EDITIONS OF SERBIAN ASTRONOMICAL INSTITUTIONS AND SOCIETIES 2013-2015

Abstract. Electronic publishing of astronomical institutions and societies from Serbia in the second part of 2013 and 2015 is described and analysed.

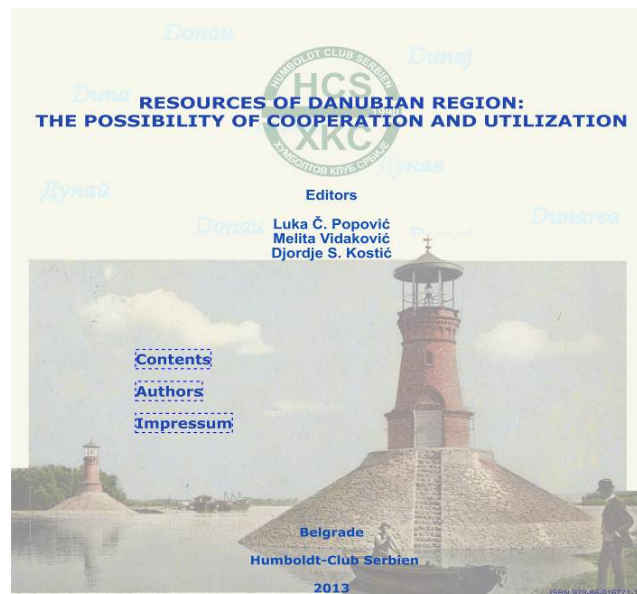

Keywords. Astronomy, electronic publishing.

The electronic publishing in astronomical institutions and societies in Serbia, which started in 2006, has been reviewed in detail in Ref. [1]. This activity within the 2006-2009 period was reviewed in detail in Ref. [1], for 2010 and the first part of 2011 in Ref. [2], in Ref. [3] for the second part of 2011 and the first part of 2012 and in Ref. [4] for the second part of 2012 and first part of 2013. In Refs. [1-4], has been presented 38 CDs and DVDs, published from 2006 up to the end of 2013. The publishers were Astronomical Observatory, Astronomical Society “Ruđer Bošković”, Society of Astronomers of Serbia and Naturalist Society “GEA” from Vršac. One DVD, containing Abstracts, Presentations and Photos of the 1st Workshop “Astrophysical winds and disks; Similar phenomena in stars and quasars”, organized 2009 in Platamonas, Greece, by Teams of National and Kapodistrian University of Athens (Faculty of Physics) and Astronomical Observatory of Belgrade, has been published in Greece. Here we will review the CDs and DVDs published from the second part of 2013 to the first part of 2015. The following electronic sources have been published within the considered period:

1. II Workshop on Astrophysical Spectroscopy, October 9-13, 2013, Vrujci, Abstracts, Program and Photos [Electronic source], ed. Milan S. Dimitrijević, DVD prepared by Milan S. Dimitrijević, Miodrag Dačić and Tatjana Milovanov. – Belgrade: Astronomical Observatory and Society of Astronomers of Serbia, 2013, Electronic optical disk (DVD).

Dimitrijević, Miodrag Dačić and Tatjana Milovanov. - Belgrade: Serbian Astronomical Society and Astronomical Observatory, 2014, Electronic optical disk (DVD).

The nine new electronic sources presented above (DVDs and CDs) are multimedia electronic editions, containing different materials from respective conferences and books. Programmes, Scientific and Local Organizing Committees, lists of lecturers and participants, presentations, photos in high resolution ready to be included in some future publications, book of abstracts and proceedings (when available), CIP and ISBN numbers are provided.

These new electronic publications, as well as all previous ones, reviewed in Refs. [1-4], are included in Serbian Virtual Observatory (SerVO <http://servo.aob.rs/eeditions>).

The objective of this activity is to enhance the influence of our scientific results by making them accessible worldwide.
